Kamen/Andersen/Guirey

You are everything i want and more
You are everything to me
To me

I am here you are there
All i really want is to be with you
I know you care
I know you care

You are everything i want and more
You are everything i need
I need

I am here you are there

All i really want is to be with you
I know you care
I know you care

You are everything i want and more
You are everything to me
To me
