As I write you now  
I'm 20 thousand light years from the sun  
I'm reaching out for love  
Tell me you're not gone

Is it logical?  
Will we stand the test of time?  
In a thousand years or more will you be mine?  
I know you've already gone but love is blind

Always on my mind  
Fill our space with time  
Look inside to find  
You're always on my mind

Faces fade away  
All the places lose their names  
But the one thing I recall is still ingrained  
A love like ours could never fade away

Always on my mind  
Fill our space with time  
Look inside to find  
You're always on my mind

Whoa Whoa (3x)

I wanna know  
How you lived your life  
Did you find love after mine?  
Which places did you find?  
I hope you know you're always on my mind

Always on my mind  
Fill our space with time  
Look inside to find  
You're always on my mind

Always on my mind  
Fill our space with time  
Look inside to find  
You're always on my mind

Always on my mind, always on (repeat)  
(Whoa whoa)
