Aching bones can last for hours  
Aching lips can last a night  
Shaking hearts can hold for minutes  
But first love will last from sight

It's the time, the place, that face you make  
That hug, that kiss, that still remains  
I'm yours, you're mine, like that it's fine  
A wink, a smile, it makes it all worth while

My bed smells of you in the morning,  
Even though you're gone for days  
You take my clothes and to be quite honest,  
I like it even though i moan

If you've got a problem, i'll step right on it

As long as you're back when im home

### BRIDGE

It's the time, the place, that face you make  
That hug, that kiss, that still remains  
I'm yours, you're mine, like that it's fine  
A wink, a smile, it makes it all worth...

It's the time, the place, that face you make  
That hug, that kiss, that still remains  
I'm yours, you're mine, like that it's fine  
A wink, a smile, it makes it all worth while
