Verse 1

I wanna go out
But can't decide
I'm tired and I'm lazy and it's cold outside

I'm by myself now
I guess I'm fine
So maybe I'll just stay all home alone tonight

Pre-chorus

But you can come around, come and get me
And I won't resist
Tell me what's going on
You know that I'll be up for it

And we're walking in
Music's bumpin
And the night begins with my

Chorus

Boys boys, make a lotta noise
Throw ya hands up, might have some luck with them

Girls girls, you rock my world
Raise a red cup if you know wassup with them

Boys boys, where my boys at?
My dude's in the corner and he's trying to mack on
some

Girls girls, we all know that
The party's all about the girls

She got me bad
She told me she was something that I never had

Don't know her name but
I'm in the zone

These flashing lights and crazy nights, I won't go home

Pre-chorus 2

Baby come around, come and get me
And I won't resist
Tell me what's on your mind
You know that I'll be up for it

Switch to overdrive
Music's bumpin'
And the night is alive so

Outro

Lemme hear ya say hey, hey, hey, hey
Everybody's vibin
Nobody's drivin

Hey, hey, hey, hey
Crash on the couch
if you're in then I'm in

Lemme hear ya say hey, hey, hey, hey
Everybody's vibin
Nobody's drivin

Boys, girls, we all know that
The party's all about the girls
