#### Verse 1

Sound the bell  
Bid farewell  
Walk away  
From the place  
That is everyday

Holdin tight  
It's alright  
Moving on  
Hear that summer song  
Still the past is in replay

#### Pre-chorus

Pictures perfect packed away  
Will we last? I'll wait to see  
I know there's so much more to say  
But for now I'll let this be  
Because I'm Gone

#### Chorus

Forget and be forgotten  
We know the ropes will fray  
Wish I could break the clock in  
Can't close my eyes to yesterday

The fact but not the feeling  
When will I cross the line?  
All that tomorrow's stealing  
Some days I'm caught between

#### Verse 2

Now  
Now and then  
I pretend  
We're only finger-painting  
Somehow there's youth still in the air

Though naÃve  
I believe  
Spent my nights

Working on foresight  
So I can prove that I've been there

Pre-chorus

Chorus

Bridge  
Never gonna go back  
Never gonna have that  
Never gonna let you run my day again

But don't know what's out there  
Hear it come louder  
If only I could get back every hour spent on you  
But now you're gone

Outro  
Singin' Please please please  
I can't believe  
I'm caught between  
I need to make you mine  
Oh I can't save time
