It's nothing new  
I'm telling you  
I've just been saying  
It's been a while  
Since I've made you smile  
You keep me waiting

It's nothing new  
It's nothing new  
All these words that I've construed

So I pound on these black keys  
Playing chords like the falling leaves  
She's got me on my knees

It's nothing new  
I'm telling you  
I've just been saying  
It's been too long  
Since I've sung my song  
Infatuating

It's nothing new  
It's nothing new  
What happened to love I knew

So I pound on these black keys  
Playing chords like the falling leaves  
She's got me on my knees
