"Snow Falls"

Visit "[Snow Falls](#)" on MotoLyrics.com

Enemy's become my friends when I send white light
All around the world I'll yell it with the words I write

Scars sneak on my body when I least know
And the only way to make them disappear is to make it
snow

You make it snow
Make it snow

[Chorus]
Snow falls everyday of the year
When the hatchet's buried
Every step feels like the first again

Demons lace my soul and I can't forget
Thank the path that took me in and a lost regret

No one is brand new, everybody has a bruise
So the snow drips down to the toes of my shoes

[Chorus]
Snow falls everyday of the year
When the hatchet's buried
Every step feels like the first again
Snow falls everyday of the year

Now you're out so let the snow fall down
I'll hold you closer
Now you're out so let the snow fall down
Because it's over
Just forgive
