Verse 1

On a day
Like today
Wanna go oh oh
Get away
I'm on pause, just wanna play
Movin' slow oh oh
Then I saw you, laughing to yourself
And I saw you, you and no one else
When I saw you, trying not to look my way

Prechorus

Been dreamin of a girl like this
Just the first few pages of a
Summer wish

Chorus

You could be
The one I'm waiting for, for so long now
The girl I'm aching for, for so long now
The love I'm praying for, for so long now
But time moves fast with the sunrise girl

Verse 2

Took her hand
And we laughed
And we ran
Wanna go oh oh

'Cause we can
She's my answer to the world
And I know oh oh

When I saw you, you were looking too
And I saw you, yeah that's when I knew
When I saw you, and the sun came up again

Prechorus

Been dreamin of a girl like this
Just the next few pages of a
Summer wish

Chorus

Chorus

You could be

The one I'm waiting for, for so long now

The girl I'm aching for, for so long now

The love I'm praying, yeah the love I'm praying for, for,
it's you

Prechorus

Been dreamin of a girl like this

And now the final pages of a

Summer kiss

Ooh

Chorus

The one I'm waiting for

The girl I'm aching for

The love I'm praying for

Chorus

(Now I found)

(The one I need)
