"Anything Is Possible"

Visit "[Anything Is Possible](#)" on MotoLyrics.com

When all the things that seem to matter
Slowly vanish in the haze
When all your dreams are suddenly shattered
Or life just seems to laugh you in the face

Don't hold on to what you know
Sometimes you just have to let it go

Keep on reaching, for the stars
Anything is possible, oehoehoe
Keep believing, it's not that far
Anything is possible, oehoehoe

When you just worry 'bout tomorrow
When you're too trouble to appreciate, today
When you get lost on the road, you follow
I might have to change your way

Don't hold on to what you know
Sometimes you gotta have to let it go

Keep on reaching, for the stars
Anything is possible, oehoehoe
Keep believing, it's not that far
Anything is possible, oehoehoe

It's never right around the corner, are we getting
warmer?
Nobody knows. And if love waits, just around the corner
Why wait till it shows?

Keep on reaching, for the stars
Anything is possible, oehoehoe
Keep believing, it's not that far
Anything is possible, oehoehoe
