Whenever she's around  
I feel my heart went down  
And I'm in deep  
Yeehh I'm in deep love now baby  
When she takes my hand  
I'm under her commend  
And I'm in deep (deep)  
Yeehh I'm in deep love now baby

And I just can't stop this feeling baby  
I just can let this feeling gooo

Cause when the mood is high  
And the music plays  
I lose myself  
I'm a real bad case  
And when she takes me to  
A secret room  
I lose myself  
To slept my face  
I'm in deep..

No matter how I try  
To keep the cool inside  
I'm still in deep  
I'm in deep love now  
And there's no other way  
I'm feeling lost and test  
I'm in deep (deep)  
I'm in deep love now.. yeeaaahh

And I just can't stop this feeling baby  
Nooo.. I just can let this feeling gooo

Cause when the mood is high  
And the music plays  
I lose myself  
I'm a real bad case  
And when she takes me to  
A secret room  
I lose myself

To slept my face  
I'm in deep..

I'm in deep love now baby..  
I'm in deep love now baby..

Come on, Come on, Come on, Come on (2x)

Cause when the mood is high  
And the music plays  
I lose myself  
I'm a real bad case  
And when she takes me to  
A secret room  
I lose myself

Yeaaahhhh..

Cause when the mood is high  
And the music plays  
I lose myself  
I'm a real bad case  
I lose myself  
To Slept my face..  
Slep my face..  
I'm in deep, deep, deep, deep  
I'm in deep  
I'm in deep love now  
I'm in deep  
I'm in deep love now baby..
