Time and place are so unreal
It's how we see the things or feel
You're half a world away
But I can feel you near

You made your way right to my soul
Picked up the pieces and made me whole
Your presence seems so real
I close my eyes

Dream with me
Touch me baby
Dream with me

Move me like you used to do
I can see through the curtains of time
I can feel through the darkness of night

It's real, don't wake up
Don't let the bright light fool you
Just dream with me

And all the lights that guide the way
Make all the other things turn grey
There's too much to reveal
Just close your eyes and

Dream with me
Touch me baby
Dream with me

Move me like you used to do
I can see through the curtains of time
I can feel through the darkness of night

It's real, don't wake up
Don't let the bright light fool you
Just dream with me tonight

And when we get to cloud nine
You'll know just what to do

We're gonne make the sun shine on through

Move me like you used to
Move me like you used to
Move me like you used to
Move me like you used to do
