Come on baby won't you pick up the phone
Cause I'm here on my own in my private twilight zone
I can't recall when I last had a laugh
and my friends are talking behind my back
They all worry about me when they go out without me
Cause I'm kinda stuck in a broken hearted state
I don't want to think that it's too late
for you and I to make things right

It's a beautiful morning, the sun is shining down on me
And you, wherever you are now
Won't you listen when I'm asking you to...

Hold on I'll sing you a little love song
I promise to make it short and sweet
Do you like it, will you listen while I
Keep on singing a little love song
I hope it will make you stay with me
Do you like it, will you listen to me now

If I could get it on the radio
Make it a hit on the air so you would hear it everywhere
And you would think that it's pretty good
'till your friend told you and you understood that it's
me
And I am hoping for a new beginning
Cause I never saw that sign that says the end
And I would make you want to see me again
Oh excuse me I just fantasized

But if you happen to hear it
Won't you listen when I'm asking you to...

Hold on I'll sing you a little love song
I promise to make it short and sweet
Do you like it, will you listen while I
Keep on singing a little love song
I hope it will make you stay with me
Do you like it, will you listen to me

I'll sing in the street and I'll sing in the car

I'll sing on the bus and I'll sing at the bar
I'll sing it to everyone you'll ever meet
I'll sing for the moon and I'll sing for the stars
I sing it to Jupiter, Venus and Mars
And hopefully I'll sing you back to me oh yeah

Why won't you hold on I'll sing you a little love song
I promise to make it short and sweet
Do you like it, will you listen while I
Keep on singing a little love song
I hope it will make you stay with me
Do you like it, will you listen to me now, oh yeah
Do you like it, will you listen to me now
