Before I begin, let me tell you the state that I'm in.
I'm throwing off reason again, and it takes me back.
Well, there's a rewind. Leaving the darkness behind
It's turning increasingly by, and it burns my eyes

To see us both on fire, makes me weak inside
And my breathing, slows down.
I try to fight it, but I can't help it now.
Was it worth the try? Was it all this waiting for you?
Worth the while? Was it worth, the goodbye?

From of the top of the hill, the signs are so clear
But choose not to see, ignore what we feel.
And the promise, kept us by

Now I'm waving a flag, won't you please help me out?
We can go back, and we can stop now.
I play it over and over and over, in my mind.

I see us both on fire, makes me weak inside
And my breathing, slows down.
I try to fight it, but I can't help it now.
Was it worth the try? Was it all this waiting for you?
Worth the while? Was it worth, the goodbye?

But I turn the pros and the cons, the right and the
wrongs
and the heart and the songs

But the pain lingers on
But the pain lingers on

Was it worth the try? Was it all this waiting for you?
Worth the while? Was it worth goodbye?
