Well I found a girl that should name it
I don't do nothing sets you wondering
She makes the Mona Lisa look rough
She need a true for lover and I am the one
A love so fine
Each time I see her I am getting ready to see her again
Although she looks like a fire.
She's got me creeping like a . on a pole
She needs a gas on her . matter of fact she's so
fine
A love so fine
She can't be after my money
Cause she knows I ain't got none
She only wanna be the pretty little wife
Of
Each time I see her I am getting ready to see her again
Tonight I am gonna tell her that I don't wanna be
just friends
She's got a . just won't quit
Everything I like you to know she's so fine
A love so fine
She can't be after my money
Cause she knows I ain't got none
She only wanna be the pretty little wife.
Each time I see her I am getting ready to see her again
Tonight I am gonna tell her hey baby no more folks
friends
She start the love won't shake . so fine
A love so fine a love so fine a love so fine a love so fine
