That little white lie you've been couchin'
Seems to be the last straw
Now there's going to be an eruption
Love's got a lot to answer for

That crack you made only half jokin'
Has poured salt on his soul
And if there must be retribution
Love's got a lot, yes, a lot to
Love's got a lot to answer for

It's not the same as infatuation
It comes from deeper down
It won't be played about will
It won't be pushed around
I could have told you what's in store

Love's got a lot to answer for
Love's got a lot, yes, a lot to
Love's got a lot to answer for
