What a fabulous night  
Look at the moon and stars all shining bright  
It's a wonderful night alright  
Oh, it's so heavenly  
I could almost believe it was made especially  
Tonight

There's a place that I know  
A secret place where I sometimes go  
If you wanna know where, we'll go there  
So don't hesitate  
'Cause although it ain't late  
We still can't afford to wait

Tonight, there will be no sorrow  
Tonight, don't think about tomorrow  
Tonight we'll do what must be done  
So we won't be the only ones  
Tonight, how can we fail to fall  
Tonight, it's really magical  
Tonight we're just a boy and girl  
The only people in the world  
Tonight

Oh, it's so heavenly  
I could almost believe it was made especially  
Tonight, there will be no sorrow  
Tonight, don't think about tomorrow  
Tonight we're just a boy and girl  
The only people in the world  
Tonight, how can we fail to fall  
Tonight, it's really magical  
Tonight we'll do what must be done  
So we won't be the only ones  
Tonight
