She's like a stellar  
She's got a fella  
She knows Italian too  
She just started driving you

I know the man on Mir  
I'd love to see what he can see  
The black and grey that share his sleep  
Alone, alone  
Butterfly in cocoon

I've lost my way  
I want my way  
To see the green and white and blue  
See the Great Wall  
See me and you

I feel I know the man on Mir  
I'd love to see what he can see  
The black and grey that share his sleep  
Alone, alone
