"Sweet Song"

sing something familiar make me feel new
sing something to break my heart so i can sing too
sing something magnetic, draw the pain out of me
my sweet song

soothe me,
you alone can thrill me ,
chill me to the bone
sweet song
sweet song

play something that shivers all over my skin

play something that lingers long after it ends
play something so powerful i must give in
my sweet song

soothe me,
you alone can thrill me ,
chill me to the bone
sweet song
sweet song
