Baby girl we go together
like a snow cone in the warm weather

like a pledge we once took together
me and you forever

girl we can do anything you wanna do
hold my hand lets fly away bet you'll like the view

baby girl i am a gee
let me brush you up on your history

we go together like Romee and Juliee
not a princess but a queen
and a better half to a royal king

hope i am not dreaming
cause i dont want to lose this feeling

Baby girl stay by my side
and i will stay by your side
and we can be side to side
cause love like ours is hard to find
side by side

unlike split ends we dont split that easy
but whenever i am not with you my loneliness kills me

you feel me
i feel you
come ride with me
I'll grind on you

fairy tales have happy endings lets make ours true
one happy ending lets make it two
stand by my side we will make it through

Baby girl stay by my side
and i will stay by your side
and we can be side to side
cause love like ours is hard to find
side by side

never mind the hardship
baby girl we can fight through it all

cause as long as we have loveship
girl we can have a ball

girl i am sorry for the times i lied
but you gave me a chance and stayed by my side

cause it all comes down to whos by your side

cause for you i hope its me

and for me i hope its you

girl please forgive i am sorry

and with out you i feel blue

Baby girl stay by my side
and i will stay by your side
and we can be side to side
cause love like ours is hard to find
side by side
