Everyone is facing changes
No one knows what's going on.
And everyone is changing places
Still the world keeps moving on.

Love must always change to sorrow?
And everyone must play the game,
Because its here today and gone tomorrow
Still the world goes on the same.

Love must always change to sorrow
And everyone must play the game,
Because its here today and gone tomorrow
Still the world goes on the same.

Its here today and gone tomorrow
Still the world goes on the same.
