You told me you were leaving  
After all we've been through  
Guess I'm fool falling in love with you  
There ain't no use in crying  
Do what you have to do  
Guess I'm a fool falling in love with you.

[Chorus:]

You told me that the kind of love we have  
Will last for a million years  
I believe everything you said  
You felt my heart with tears.  
So long pretty baby

Go break some other heart in two  
Guess I'm a fool falling in love with you.

[Chorus:]

You told me that the kind of love we have  
Will last for a million years  
I believe everything you said  
You felt my heart with tears.  
So long pretty baby  
Go break some other heart in two  
Guess I'm a fool falling in love with you.

Falling in love with you,  
Falling in love with you  
Falling, falling in love with you.
