Goodbye... Goodnight... Close your eyes... Angel.

I gave you the stars, because I can.
I tore them from the night.
Understand... They're in your hand.
God made them shine to prove that you were mine.
I miss you.

Goodbye... Goodnight.
Your eyes. Your smile... Beautiful. Perfect...
That scent you wore... I miss you.

I remember... My heart beat to the sound of your voice.
We would live forever, but God needs you more than I
could ever.
I need you too... He took you and now I cry. You have
died.
Watch over me. I'll keep the memories... I miss you.
