I never said that this would be easy,
You gave up trying before we had the chance.
This is my time to shine,
But in this town we all die young.

So scream at the world,
We'll show them we are here.
How could you be so selfish?
This is your chance, prove me wrong.
And when you fall asleep,
I know you'll dream of me.
You'll dream of me,
You'd look so wonderful dead.
Find your way back home.

I've watched the way that you fall,
It's so tempting.
You've let me down.
I've watched the way that you fall,
It's so tempting.
Prove me wrong.

So, when you fall asleep,
I see straight through,
I see straight through those crooked lies.

I never said that this would be easy,
You gave up trying before we had the chance.
This is my time to shine,
But in this town we all die young.

I can prove you wrong,
I can shove it down your throat.
