I'm gonna go from a whisper to a yell  
What the hell  
Its only half as good without you

Missing you to death is only half as good my darling  
Only half as good as it can be  
A thousand words; they fill my book as you appear my  
darling  
Help me help myself when you're away

Missing you this much isn't easy on my blood flow  
Not as easy on this heart as it can be  
A thousand words begin to pour but only you can say it  
more  
Help me help myself when you're away

I'm gonna go from a a whisper to a yell  
WHAT THE HELL  
Its only half as good without you  
Yes, I'm gonna go from a whisper to a yell  
WHAT THE HELL  
Help me help myself

Help me help myself when you're away

Step one. Take it easy. Its easy to do  
Two. Keep thinking of me  
Rinse and repeat those previous two  
It's how I roll. It's what I do to help me help myself when  
you're away  
So, tell me how you feel today

Cause I'm gonna go from a a whisper to a yell  
WHAT THE HELL  
Its only half as good without you babe  
Yes, I'm... I'm gonna go from a whisper to a yell  
WHAT THE HELL  
Help me help myself.  
Help me help myself when you're away  
Its only half as good without you
