I live in a big blue sky
Where all the angels and the devils walk around me
I live in a big blue sky
And I can see that all of heaven is around me

On the trail to see my home
I know I've changed my way
Takin' it very slow
Because I'm takin' every day

(PRE CHORUS)

Got 2 suitcases and a microphone
and a place to share my story
Gonna take the things I've learned,
the things I've earned; Gonna give the glory
Always to the Son...always to the Son

CHORUS

I'm weaker than I know
Being strong has slowed me down, down
Jesus help me please
Out to you I call, without you I will fall (down)

BRIDGE:

how can you love what you don't know?
I'm just a brittle seed that wants to grow
