Closed up, closed down  
Locked up, beaten down  
Waiting 'till somebody breaks in  
To put locks on the door  
Why so long?  
Why so hard?  
Why so long?

Tossed around, Spoken about  
Telephone, gossip town  
Can't get over it  
Can't make it through the locked door  
locked town  
Locked door

Lookin' down  
Is God around?  
Counting down  
Looking around  
Is God here and if he is  
Why don't he ring the saving bell?  
'cause I just fell  
down

Time to get better but I still feel sick  
Who can save me from the pit I'm in  
I can yell, scream, jump around, laugh & cry  
But who's gonna save me...  
When I'm down?  
Savior, my Savior
