Visit "[Hey You](#)" on MotoLyrics.com

Hey you
what ya starin' at me for?
Hey you
What ya askin' me for?
I don't have all the answers
to your questions
Maybe God or someone else
will be able to answer

CHORUS:

Poo poo - I can't help you
Poo poo - you're on your own

Irritation describes what I feel
Salvation comes after every meal
I don't need your suggestions
or your sympathy
Stay a way way way way way way way way
far away from me

BRIDGE:

Make a way to find a way
You break away to find you're a slave
Take away the masks you play
You're a messed up rotten old piece of love
with nothing to break
