They say love will bring ya down  
You would know; if ya come to my town  
What you see is what you get  
There's nothing yet but this old love  
bringin' me down

Dirty old bouncer chuckin' me out  
Ya my family doctor says I got gout  
What I got; is what I know  
I gotta go and change my mind; one more time

CHORUS:

Ya spoil my blues away  
You can take all my pain away  
You can make purple outta skies of grey  
and I wanna say... x2 thank you

Same old thing; same old way  
Always happen every day  
Same old love; different jive; Gotta keep it alive  
Before it grows; into soggy mold

BRIDGE:

Who said lovin' would be easy  
I could tell him that he's wrong  
All I gotta tell ya is the one hit wonder  
is nice but you'll be comin' back for more
