Initiating Alex..

Oh my tippy toes sneaking out the door
You're in bed and I'm so bored
My girls downstairs and we're going out
Run in town, show what we're about

Banging til we drop
Shaking our heads but we won't stop
Popping those bottles cause we rock rock

Boys are toys so let's call them out
"Hey you cutie, follow us"
Pass that line yeah we walk right in
I am we have time to sin

Banging til we drop
Shaking our heads but we won't stop
Popping those bottles cause we rock rock

Tonight the night is ours
And we gonna be dancing dancing on the stars
The spotlight is on you
You know that there is nothing nothing you can't do
Cause we all shine
We all shine
We all shine
We all shine

Tonight the night is ours
And we gonna be dancing dancing on the stars
The spotlight is on you
You know that there is nothing nothing you can't do
Cause we all shine
We all shine
We all shine
We all shine

DJ please can you turn it up
Play my song, I will show what's up
Pop that booty like no one stares
Let's get stupid now, we don't care

Got pops in my head
My feet hurt but I don't care
Give me that booze and just say ah ah ah ah

Tonight the night is ours
And we gonna be dancing dancing on the stars
The spotlight is on you
You know that there is nothing nothing you can't do
Cause we all shine
We all shine
We all shine
We all shine

Let's party party like we never did before
When we get started you'll be begging me for
more
Let's party party like we never did before
When we get started you'll be begging me for
more

Tonight the night is ours
And we gonna be dancing dancing on the stars
The spotlight is on you
You know that there is nothing nothing you can't do
Cause we all shine
We all shine
We all shine
We all shine
