"Release me"

I woke up today
With tubes within my veins
Too much questions asked
And the truth seem to slip away
Lies are easily made
Forgive me if I don't say good night tonight
Tonight
Tonight

Please release me today
Kill your flowers, water me
Replace all your cards
All your cards

I ended today with pills
That takes me away
Too much pleasant time to lose
It brakes me away
Help me be myself
And forgive me if I don't say good night tonight
Tonight
Tonight

Please release me today
Kill your flowers, water me
Replace all your cards
All your cards
All your cards
