I left the world above to claim my prize
Watch me take the least without surprise
If only I could change the course of fate
Will my father judge my only crime?

Wash my memories with time
I'll be safe and yours
Wash my memories with time
I'll be safe and yours
Behind your eyes I see a glint
That forces me to fade away
Wash my memories with time
I'll be as pure as you

Fold my wings and crawl the street of lights

Watch me taste defeat with grief inside
If only I could put this all to rest
Will my angels help me rise again?

Wash my memories with time
I'll be safe and yours
Wash my memories with time
I'll be safe and yours
Behind your eyes I see a glint
That forces me to fade away
Wash my memories with time
I'll be as pure as you

As pure as you...
