It's been one of those days  
Where all my blue has turned to grey  
A thunderstorm  
Above me forms  
And I need sheltering

So Maker of the wind and rain  
Can you calm the hurricane  
In my soul  
Out of control  
Or help me face what may

Chorus  
I love you  
I want you  
I need you right now  
I can't live without you  
Don't wanna learn how  
With all of my heart  
I surrender I bow  
Elohim...Cover me

No matter how hard I try  
Nothing seems to satisfy  
The deepest part of my heart  
Where shallowness resides  
'Til I'm so desperate I call Your name  
And you revive my soul once again  
Of all that I  
Crave inside  
This can't be denied

Chorus  
....Rescue me....Cover me....Forgive me
