I FALL LYRICS-NICOLE C.MULLEN

I give up i surrender,i throw in the town
Exposing my weakness to infinite power
with all of my weight, i lean heavy on you
with bags on my back,and in both my hands too

chorus

I fall, I fall on you
I fall, I fall on you

See my world keeps on spinning,out of control
And am dizzy from trying,to stand on my own
But you promised to catch me ,if i tumbled down
'Cause the way to the sky,starts low to the ground

chorus

And i fall, fall on you
I fall, I fall on you

bridge

please dont move,please dont move,please dont
move,
From here, from here(4 times)

chorus and bridge together
