"In The Shadow Of The Sun"

Don't breathe! Don't speak!
Cause the way that You breath
And the way that You speak could kill You
Don't move! Cause the movement that You'll do
Could tire You to death, could tire You to death

Why I always feel like I'm in the shadow of the sun,
I can not move from this hole away

Don't breathe! Don't speak!

Cause the way that You breath
And the way that You speak could kill You
Don't move! Cause the movement that You'll do
Could tire You to death, could tire You to death

Why I always feel like I'm in the shadow of the sun,
I can not move from this hole away
