"If You Say I Do"

Visit "[If You Say I Do](#)" on MotoLyrics.com

Take me to that place where you can love me every day
In every way
Take me through that door where you can give me
even more of you

Say "I do love you"
Say "I promise to be true"
Make me believe that you'll never leave
I won't tell you what to do, I'm just suggesting I might
trust in you
If you say I do

I've got everything that I know I'll ever need
And you've got me
How could anything or anybody come between
This love so sweet

Say "I do love you"
Say "I promise to be true"
Make me believe that you'll never leave
I won't tell you what to do, I'm just suggesting I might
trust in you
If you say I do

And all my days would be blue
If all my days are without you
And I don't wanna be if you are not with me
Don't worry 'bout a thing, just listen to me sing

Boy I do love you
Yeah I promise to be true
I hope you believe that I'll never leave
I'm just so in love with you that baby, if you ever ask me
to
I would say "I do"
