Baby when you leave  
I hold nothing back  
Weapons up my sleeve  
Like I'm under attack  
So cover up your ears  
Cos it only fuels the fire  
I'll be what you fear  
I'm the answer of your desire

[Bridge]

[Chorus]

I touch the sky-y-y (x4)  
(Your heart is)

[Skrillex]

If you could hear me now, why don't you recall?  
I was the one who cared after all

I touch the sky  
Let the light in my face  
Pierce through my skin  
Gone with the wind  
I touch the sky  
Let it fade into grey  
Burst through the seams  
I'm on the wing

[Bridge]

I touch the sky (x4)

[Chorus]

I touch the sky-y-y (x4)
