They wonder what I know,  
What I won't let them see  
(Only 17 but my love is for real)  
They wonder who I'm with  
Your secret's safe with me (Only 17)

I just want you to know  
I just want you to know  
I just want you to know  
Just how I feel...

Only 17

They wonder what I know,  
What I won't let them see  
[x4]

Wonder, wonder, wonder, wonder...

I want to write you a note,  
That you'll never read  
My friends keep telling me I shouldn't beg and plead

I just want you to know  
I just want you to know  
I just want you to know just how I feel

Only 17 but my love is for real  
Only 17 but my love

Only 17!  
Only 17!  
Only 17!

They wonder what I know,  
What I won't let them see  
[x4]

Wonder, wonder, wonder, wonder...
