Smash,

the pain arrives and destroys your mind

and then you look inside yourself finding only
heartache,
finding only the hidden truth

There's only one place

where you can find the answers to your dreams

I gave you the keys,

I gave you the thrust to act as you wished,

and here we have the result: our love will burn forever

We lived through many difficulties,

once beyond the lies

I saw you were crying;
it was your consciousness that made you understand

that our destinies are chained

I will be nothing for you

if you'll be nothing for me
But as serenity falls

I will still have hope

And the world so celestial,

like heaven, like you
The wind brings me your essence,

your spirit, you're mine

You know what I feel,

you know I've got you in my flesh,
an indelible fucking stain which cannot be erased

So our legend will always survive, through centuries
and time:

we have guarded our secret, day by day, enjoying
every instant;
we have built our story, we have moved on together
breaking every chain

Together we'll never give up,

we'll never abandon, we'll never give up
Destroying the walls, destroying our enemies

and finally opening the doors to freedom

I gave you the keys,

I gave you the thrust to act as you wished,

and here we have the result: our love will burn forever
