Kevin:

Will we ever know where we came from  
or find the first signs of creation?

(Will we ever know?)

These questions hound us  
since the beginning of times  
Nobody has ever been able  
to give humanity an answer  
and we're still waiting for one...

Life is a gift given to men by something we don't know  
Don't let it drift away and pick the fruits of the seeds we  
sowed

Explore the Universe  
breathe new dimensions  
and find the answers  
to those eternal questions

From the bottom of our hearts  
to the tips of our tongues  
we're all conscious  
we are not alone

We must know who put the seeds of life on Earth.

and still...

These questions hound us  
since the beginning of times  
Nobody has ever been able  
to give humanity an answer  
and we're still waiting for one...

Life is a gift given to men by something we don't know  
Don't let it drift away and pick the fruits of the seeds we  
sowed

Fella:

Will our creator ever show himself to us?

Time for humanity has come to open up our eyes  
Earth has become our grave  
but we won't die buried in our ignorance  
Don't let evolution stop.

Kevin:

Will we ever know where we came from  
or find the first signs of creation?  
Don't let evolution stop and find salvation
