In time you'll learn this is about you (x3)

Babies from 80s don't know no better  
Don't nothing go better with ignorance  
But the belligerent kids that we living with  
Some of them masculine, some of the feminine  
'Member the universe used to be innocent  
Now they just look at us crazy like immigrants  
Everyday that I wake up, I'mma sin again  
I'm not a citizen  
I'm just a nigga from Section.80

Show of hands, how many been taking notes?  
Good  
Leave everything on the table now  
On the real  
This is your generation  
Show, show your pain
