[Intro:]

Oh what up, ho  
Oh what up  
I said oh what up, ho  
Oh what up  
I said oh what up, ho  
Oh what up  
Well alright

[Chorus:]

I'm goin' through something with life  
But pussy and patron will make you feel alright  
Pussy and Patron make you feel alright  
Pussy and Patron that's some great advice  
[x2]

[Verse 1: Kendrick Lamar]

Welcome to my diary, stressin' got me gray hairs  
Something to inspire me, rather than society's  
Woes, let me go, let me shine a lil' bit love  
I want diamonds too, Ronnie on Player's Club  
I used to have a 9 to 5, fresh out of school that was 05  
That b\*tch was racist, got me fired  
They rushed us then, I had no job  
Pushin' in my mama van, stop for gas on Rose Cranz  
Trust me these n\*ggas rushed me for something my  
cousin probably did  
Guilty by association story of my life, n\*gga!  
You gon' make me flip and split yo sh\*t just give me  
life, n\*gga!  
Pain since my grandma's death, uncle killed at Louie's  
Burgers  
Hold my tears I tried my best  
Let it go trash my pullover  
Cycles of a starving artist tryna go beyond the margin  
margin  
Maintainin' my modest modest as I dream  
So while I go through all this all this bullsh\*t what you  
call it  
Life itself I know it helps let me scroll through my  
Blackberry

[Chorus:]

I'm goin' through something with life  
But pussy and patron will make you feel alright  
Pussy and Patron make you feel alright  
Pussy and Patron that's some great advice  
[x2]

[Verse 2: Kendrick Lamar]

I said keep reading my diary, when my life's entirely  
Surrounded by the irony of livin' in the city  
I said they wouldn't hire me  
I said I got my ass beat  
And the only thing can help is ass and some titties  
So whassup baby?  
I said whassup? I had a long day and I really wanna  
f\*ck  
See I ain't tryna think about no phone bills, credit card  
late fees  
Capital One poppin' up on my caller ID  
Corner my chain in the shop  
Watchin' for hollow tip shots  
Watchin' my vehicle break down on another man's  
block  
Man that's my worst fear  
Ain't that your worst fear?  
You know when your transmission go out and can't  
switch gears  
Or run through a pothole at 2 in the morning  
Scared to hit your emergencies cause them they'll be  
on it  
See I know, when the harsh reality take its toll  
Open up your contacts then scroll

[Chorus:]

I'm goin' through something with life  
But pussy and patron will make you feel alright  
Pussy and Patron make you feel alright  
Pussy and Patron that's some great advice  
[x2]

[Verse 3: Ab Soul]

Welcome to my diary  
Hmmm, where should I begin?  
Finna get a swisher and, fill it with that leaves the  
ground  
Crackas watch my every step  
Better yet they work my every nerve  
Cuttin' me this worthless check  
The concept is so absurd  
Like a church in debt, a turtle in a turtle neck

Convertibles with turbo jets  
Fueled by 7-Up and prometh  
I feel like death's around the corner like the quickest  
wide receiver  
So I took another shot  
Tequila hit me like a nina (Blaow!)  
My sky's gray  
My b\*tches brighter always sayin' "Lights please!"  
J. Cole's her ghost writer  
And I'm the God MC  
Join my diocese  
Free ya mind, don't mind so-ciety  
And finally, everyone got their own, problems  
Everything is subject to change like broken dollars  
I'ma, drown in my drink and swim in my woman's  
vagina  
Like a piranha fin it gets harder than Rihanna when..

[Chorus:]

I'm goin' through something with life  
But pussy and patron will make you feel alright  
Pussy and Patron make you feel alright  
Pussy and Patron that's some great advice  
[x2]
