I am only nothing, I am only this  
I am just a man with these two fists  
You have asked forgiveness  
You have asked respect  
Only something that you did forget  
All you gave you had planned to take  
Beat upon me but I won't break  
Stripping everything from me? No!  
Will to me your anger, will to me your rage  
Will to me your lies, your sufferings  
Not a man of virtue, not even a man  
Will not take the hate dealt from your hands  
Years of pain I will take and hone  
Manifest with your broken bones  
My heart bleeds for none but my own  
My own  
Burn  
Burn  
I am only nothing, I am only this  
I am just a man with these two fists  
Not a man of virtue, not even a man  
Will not take the hate dealt from your hands  
Years of pain I will take and hone  
Manifest with your broken bones  
My heart bleeds for none but my own  
My own  
Burn  
Burn  
My heart bleeds for none but my own...
