You tried to spit in the eye  
Of a dead man's face  
Attacked the ways of a man  
Not yet in his grave  
But your hate was over all too soon  
Because nothing is over  
And nothing's through  
'Til we bury you

Chorus:  
For the love of brother  
I will sing this fucking song  
Aesthetics of hate  
I hope you rot in hell

The words I read on the screen  
Left me fucking sick  
I felt the hatred rising  
You son of a bitch  
You branded us pathetic for our respect  
But he made us Driven, deep reverence  
Far Beyond the rest

(Chorus)

Long live memories  
Live his freedom vicariously  
Defend tenfold,  
His honor we'll always uphold

For the love of brother  
I will say these fucking words  
No silence against ignorance  
Iconoclast, I hope you burn in hell

May the hand of God strike them down
