Sitting in the empty black  
The last slivers of dusk have passed  
Accept the dawn to ease the fear  
One day I will not be here  
Death she comes and with her thread  
Upon me ties a mask for dead  
Its tears of blood begin to seep  
And bleed the sky

Descend the shades of night  
Death shines her golden light  
Across a blackened sky  
All our hate is a product of a world...  
We created

Ashen clouds obscure my brain  
Doubts begin to turn to shame  
Insecureness tears at bliss  
I hate me for this weakness  
Faith drives me to carry on  
And take the road less travelled on  
Resentment swallowed means to drown  
The poison down  
The shades of night descend

Descend the shades of night  
Death shines her golden light  
Across a blackened sky  
All our hate is a product of a world...  
We created

[Solo: Demmel, Flynn, Demmel]

Scream with me  
Bleed with me  
Seethe with me  
Sing with me

Free me  
Free me  
Free me

Descend the shades of night  
Death shines her golden light  
Across a blackened sky  
The shades of night descend
