In this house of suffering  
I gotta let some joy in  
I hear that freedom will win  
Oh where oh where can jah love  
Be now  
My dear, it's here in the underground  
Inside the hearts of your own children  
In this house of suffering  
I spiritualogic grin,  
In one way grace is my friend  
To conquer doom and sin  
And all the nations lying  
While all our people crying  
And they stop at  
Nothing!...nothing!...nothing!  
In this house of suffering  
Don,t want but just one thing  
Got to have my origin  
In this house of  
Suffering.
