I am on fire
I feel like I can't stop burning
I am on fire, yeah
I feel like I can't stop burning

Tell me why does everything that's bad feel so fucking good
Devil in a red dress she killing me I knew she would
So bury me 1 foot for every inch of heels she wearing
Uh, I'm in lust
Still I can't trust this bitch but I keep on staring
What, matter fact fuck that no emotions
Let's get high as fuck
I don't need a light she fire me up
Pullin out white like a styrofoam cup
No hair cut but she lines me up
(What the fuck)
I don't even do this shit
What would happen if my friends knew this shit
And why the hell can't I refuse this bitch
This shit is crazy

I am on fire
I feel like I can't stop burning
I am on fire, yeah
I feel like I can't stop burning

She got her legs spread wide for the kid
And she begging me to come and get up in it
Touching herself while I take off all of her leggings
Got a girl back home and she calling every minute
So I pick up like "Bitch, mind your mother fucking business"
I'm serious, I'm tripping
No literally I'm tripping
Out of all those drinks anything could have slipped in
Not to mention what she had me sniffing
But she grabbed my dick
Told me forget about it and bit my lip
I told her turn around while I turn the music loud
Whenever the bass hits then you strip
And then she did

But she pulls a little baggy out of her panties
and put a pill on her breast
My mind said No
My dick said yes
I'm willing to do whatever to feel her sex
This shit is crazy

I am on fire
I feel like I can't stop burning
I am on fire, yeah
I feel like I can't stop burning

And she told me
"Speed it up, fuck me good, beat this pussy up like you
should
Lay back down, keep it up, let me show you how a real
bitch do"
All she wanna do is get thick and run
All I wanna do with this chick is cum
I been in the pussy for about 2 hours
But I can't feel my shit I'm numb
Her legs shaking and my legs do the same
Then it moves to my chest to my brain to the nerves in
my face
So I can't feel that mother fucker
But this ain't Novocain
Bitch quit playing
I don't even know your name
What the fuck you do to me
She said I'm the same one
still an O-Z to might being the one to make you O.D (?)
You stupid bitch

I am on fire
I feel like I can't stop burning
I am on fire, yeah
I feel like I can't stop burning
