Started from the bottom now we here
Courtside you would think I was a Cleveland Cavalier
I'm talking 30,000 feet up in the air
and dance lair 30 minutes later all the fans cheer
Bitch you ain't seen this power since Lebron
I went to Vegas for my 22nd rented out the Palms
Now they say Illuminati is the cause
Or maybe everyone one of y'all is lazy and I worked
hard
I ain't ever bowing down for a dollar
Selling my soul to a charter
I won't even take a buck from my father
But they weren't saying that back in the day
When I was hustling tickets to my shows ask Dante
And I heard tempers heating up like a fillet
Talkin' bout they run my city when they living in LA
Sucker I ain't hearing nothing but a word
Talked about I ain't about it bitch I got what I deserved
See I don't know why everybody mad
You had a chance and you blew it
Meanwhile I'm young and I'm ruthless
Meanwhile the dumber influenced
Thinking you live like the music
Don't be foolish my shooters make your face maroon
like the Hoosiers
Suckers always wanna talk funny
Broke mu' fuckas never wanna talk money
And since I was being quiet in the past
I'm on the top looking down kiss my ass
Still in the game with my same clique
Still with the hood bitches fuck Cambridge
And when they wanna know if I am real
I saw bitch I ran my city 'for I ever had a deal
