Ivory gems dipped in fur
Keep me hungry feed me words
What will you say?

Is it love or despair?
Throw my hands in the air
I'll take the bait

Like an animal in a cage
You lock me up, you lock me away
Loose again, I won't complain
You tear me down, tear me away

[Chorus]
You never choose (Oh-oh-oh-oh)
To fall in love with the enemy
You break me in two (Oh-oh-oh-oh)
Only you get the best of me.
Only Youuu-ewww-ewww
Only you get the best of me
Only Youuu-ewww-ewww
Fall in love with the enemy

Gnashing teeth, flashing chrome
Moving close, shake my bones
Let's escalate

Don't wanna think about the future
This is nature versus nurture
What do you say?

I'm an animal in a cage
You got me locked, got me locked away
Loose again, I won't complain
You tear me down, tear me down again.

[Chorus x3]
