Lets buy the sky
Fantasize
Never compromise
Dipped in silver and gold
Never satisfied

You're in the front row
You're so low
You don't know
I know

Black and blue
Faces run
Down the paper

Talking tongues
Light it up
You're a solider

You're so restless
You're so reckless
It's so relentless
I know

You want faster horses
You want faster horses
You want faster horses
You want faster, faster

You see me
Super flat
No opinion

Phase me out
I'm out
Subterranean

You're in the front row
You're solo
You don't know
I know

Lick the bit
Lick the glass
Crack the window
Crack the whip
Twist the cap
Screw your face up

You're so restless
You're so reckless
It's so relentless
I know

You want faster horses
You want faster horses
You want faster horses
You want faster horses

You want faster horses
You want faster horses
You want faster horses
You want faster, faster
