"I Go Away"

Visit "[I Go Away](#)" on MotoLyrics.com

It's over,
Indulgently sober.
How did I get here without feeling anything?
Stay true, see it through they say.
Tick tock, time just slips away.
And when the air is clear
The way I go is the way I feel.

I'll go away, I'll go away, I'll go my own way.
I'll go away, I'll go away, I'll go my own way.
I'll go away, I'll go away, I'll go my own way.
I go away.

This is my anthem.
I know it like I know everything.
I see it everywhere and in everyone.
It's complication, it's validation.
Stay true, see it through they say.
Tick tock, time just slips away.
And where the air is clear
where I'll go is anywhere I feel.

I'll go away, I'll go away, I'll go my own way.
I'll go away, I'll go away, I'll go my own way.
I'll go away, I'll go away, I'll go my own way.
I go away.

Stay true, is that what they really say?
See it through, there is no easy way,
If it's right, why do I feel this way?
Tick tock, time just slips away.

I'll go my own way.
